On December 22, 2014, Duke Energy submitted to the Nuclear Regulatory Commission (NRC), an Application for Order Approving Transfer of Control of License and for Conforming License Amendment Pursuant to 10 CFR 50.80 and 10 CFR 50.90 (Reference 1). Supplements to the Application were submitted to the NRC on March 4, 2015 (Reference 2), June 1, 2015 (Reference 3) and June 10, 2015 (Reference 4).

The supplement to the application dated June 1, 2015 (Reference 3), provided a closing date for when the acquisition and transfer were expected to occur. In a telephone conversation on June 18, 2015, the NRC staff requested an update to the expected closing date. The updated closing date of the acquisition and transfer is scheduled to occur on July 31, 2015.

Duke Energy considers that this supplement has no effect on the regulatory considerations discussed in the original LAR, including the "No Significant Hazards Consideration" and the "Environmental Consideration".

This letter does not include any new or revised regulatory commitments.

Should you have any questions concerning this letter, or require additional information, please contact Art Zaremba, Manager – Nuclear Fleet Licensing, at 980-373-2062.

I declare under penalty of perjury that the foregoing is true and correct. Executed on June 24, 2015.

Sincerely,
