Director, Office of Nuclear Material Safety and Safeguards
Attn: GLTS
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Change of 3M Company Corporate Radiation Safety Officer and Transfer of
Devices to Specific License 22-00057-03

Dear Director:

This letter is to inform you of a change to the position of Corporate Radiation Safety Officer at 3M Company. Frederick B. Entwistle retired from 3M as of February 28, 2015. I succeeded Mr. Entwistle as Manager, 3M Corporate Health Physics and 3M Corporate Radiation Safety Officer. This change applies to our USNRC Radioactive Material Licenses 22-000576-03 and 22-00057-61. The delegation of authority documenting this appointment by 3M's Vice President and Medical Director; Dr. Carol Ley, was transmitted to the respective NRC Regional Offices in February.

My contact information follows.

Michael A. Lewandowski,
Certified Health Physicist®
Manager, Corporate Health Physics and
Corporate Radiation Safety Officer

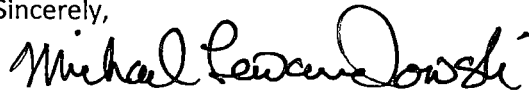

Corporate Health Physics
3M Center, Bldg. 220-06-W-08
St. Paul, MN 55144
Office: 651 736 0498
Direct: 651 737 4452
Fax: 651 736 2285
Email: 3M-RSO@MMM.com
Direct email: malewandowski@mmm.com

In addition, it has come to our attention that two (2) Honeywell International model 2201 beta thickness gauges; serial numbers LR818 and MS840, were reported to USNRC as distributed to 3M under a general license. Both gauges were received under 3M's USNRC Radioactive Material License 22-000576-03 and are currently in use at our facility located at 0304 South 075 East; Hartford City, Indiana. Please update your records to show the transfer of those two devices to license number 22-00057-03.
