I'm en route to CA. You can close this item folks. We took care of it per Eliot Brenneer's guidance.

Thanks!

Lara

Tanny, et al.

Region IV OPA (Lara Uselding) previously responded to Dr. Nelson on June 19, based on his follow-up email to Holly Harrington that same day. (I've copied the e-mail below - sorry for the crude copy/paste - I had to connect via webmail in my hotel.) Lara and I spoke to Bob Hagar (our meeting facilitator) the other day regarding Dr. Nelson's concerns (as we understood them), and Bob will be looking to meet for with him prior to the start of the meeting as noted in Lara's response.

As for other NRC "interim compensatory actions" that Dr. Nelson references in the e-mail string, Region IV is not cognizant of any additional actions that OPA or other offices may be taking based on Dr. Nelson's March 19 letter to Elliot Brenner. That letter appears to reference some issues during Region I/NMSS meetings in Vermont.

If Lara's response to Dr. Nelson is not sufficient per OEDO, I can try to work with Marc Dapas and Lara today to get something additional.

Thanks,
Ryan Alexander

Subject: RE: Request for Interim Compensatory Measures for the Upcoming NRC DCPD End-of-cycle meeting

Dr. Nelson

We look forward to seeing you next week. Thank you for reaching out and sharing your concerns with us. We will ensure the meeting goes smoothly and that the attendees are respectful of their allotted time during the question and answer period. We are bringing Bob Hagar who is an experienced meeting facilitator. Bob's primary role is to ensure that everyone who has something to say gets to speak without interruption. We do have a strategy in place to ensure that a person keeps their comments to a reasonable time. We will ask someone with additional comments or questions to wait to speak again until after other members of the public have a chance to speak. If you would like to meet with our facilitator prior to the meeting, we will be at the Embassy Suites starting at 2:00 p.m. for the open house. Bob and other NRC staff will be available to meet with you as part of the open house if desired.

Ryan,

The emails below refer to a ticket to respond to an incoming email regarding the EOC meeting for Diablo Canyon tomorrow. Should the response come from RIV? The response can be done by email but should be done before the meeting.

If the Region agrees we (OEDO) can revise the ticket.

I know it's still early there. Give me a call if you want to discuss

Shouldn't this be Region IV's response since it is their meeting?

Tracy,

Yes, an email response from Bill Dean would be fine.

Hi Tanny,

This ticket is requested to be a "formal" response and be completed before tomorrow's EOC meeting at Diablo Canyon. Given that sending a letter will not make it to the recipient before tomorrow's meeting, should this not be an email from Bill Dean to Dr. Nelson? The content and format could be the same as if it were a letter.

Also, since this is really the Region's meeting, should it not be from Region IV's management?

Thanks,

Trace

Trace – A quick turn-around tasking from EDO to respond (letter from NRR Director) to Dr. Gene Nelson on his concerns about the Diablo Annual Assessment meeting and disruptive behavior at recent NRC public meetings toward pro-nuclear groups. The meeting is on Wednesday the 24th so they want us to respond tomorrow. Let me know if you have any questions.

Good afternoon Trent,

This letter is being assigned to NRR and it needs to be expedited since his concerns deal with the Diablo Canyon Meeting scheduled for June 24, 2015.

I'm not sure how long it will take to get the assignment from EDO, but thought I would give you a heads up.

Let me know if you have any questions.

Thanks,

Patti
