Subject: [External_Sender] Scrap LNT and ALARA

To the NRC,

I fully support the efforts of petitioners Marcus, Miller and Doss. Please note the text and graphics that follow the approx. 3 page "introduction"

in <http://energyrealityproject.com/nuclear-power-climate-change-warrior-for-the-21st-century/> that deal with radiation safety, LNT, ALARA and radiation hormesis.

George Erickson www.tundracub.com

Member, Union of Concerned Scientists -- Member, Thorium Energy Alliance -- past V P American Humanist Assoc.

NO ONE has died from radiation from commercial nuclear power production in Western Europe, Africa, Asia or the Western Hemisphere, but MILLIONS die every year from burning coal and oil.

Replace carbon-fueled power plants with modern, safe, efficient, nuclear reactors that create NO CO2.
