Dear Secretary,

Dear NRC Commissioners and Staff:

I 500% agree with the comments of the Nuclear Information Resource Service regarding the NRC's Radiation Standards, 10 CFR 20.

In particular, radioactivity permitted to risk exposing ANY humans other than facility owners and NRC personnel should be REDUCED and NEVER raised. PERIOD.

If you are too "captured" to lower them, may Gods have mercy on your soul if you raise them now.

And how about that rulemaking in the light thing? Democracy? Ever heard of that? Try it sometime.
