Subject: [External_Sender] Docket ID NRC-2015-0057 - Comment on Petitions for Rule Making

Three "Petitions for Rule Making" have been submitted and combined under the subject NRC Docket ID. I wish to register my support with the intent of the rule changes recommended and would definitely support them. However, I would prefer to leave the rules as is with the following two revisions.

1: When determining the cumulative effective dose for any purpose, the first 12 μ Sv/hr shall be ignored.

2: Any rule or action taken under the ALARA principle that would result in expenditures to reduce the dose rate below 12 μ Sv/hr shall not be deemed "reasonable".

Thank you for your consideration.

Dana Johansen
