Office of Nuclear Material Safety
and Safeguards

FROM : Dominick A. Orlando, Senior Project Manager /RA/
Materials Decommissioning Branch
Division of Decommissioning, Uranium Recovery,
and Waste Programs
Office of Nuclear Material Safety
and Safeguards

SUBJECT: MEETING SUMMARY – TECHNICAL MEETING TO DISCUSS
THE DECOMMISSIONING OF THE WESTERN NUCLEAR
INCORPORATED SITE IN JEFFERY CITY, WYOMING
(Docket 040-01162)

On June 10, 2015, staff of the U.S. Nuclear Regulatory Commission (NRC) met with representatives of Western Nuclear Incorporated (WNI) in Denver, CO, and by phone, at NRC headquarters in Rockville, Maryland. The purpose of the meeting was to discuss the information that was submitted by WNI on May 11, 2015 (due to the volume of information in WNI's submission, the Agencywide Document Access and Management System (ADAMS) Accession Number is not available at this time) and the remaining issues associated with the termination of the license for WNI's Split Rock, Wyoming site. Enclosure I is the attendee list for the meeting. A meeting notice was posted on the NRC website on May 27, 2015.

After opening remarks by NRC and WNI, WNI provided an overview of the history of the site operations and a description the hydrogeological environment at the site. WNI also discussed the rationale for their belief that WNI was in compliance with 10 CFR Part 40 Appendix A Criterion 5(b)1 (the Alternate Concentration Limits). Finally, WNI provided their rationale as to why the site model demonstrated that the site would remain protective for 1,000 years. The presentation made by WNI regarding these items is included in Enclosure 2.

Action Items:

NRC to complete the review of the information submitted on WNI's May 11, 2015, and the information provided during the presentation, and if necessary, provide a Request for Additional Information to WNI.

Enclosures:

Meeting Attendee list

WNI presentation

Action Items:

NRC to complete the review of the information submitted on WNI's May 11, 2015, and the information provided during the presentation, and if necessary, provide a Request for Additional Information to WNI.
