**Subject:** [External\_Sender] NRC-2015-0057 - Linear No-Threshold Model and Standards for Protection Against Radiation

Dear Mr. Sahle:

What is the required process for requesting an extension of the comment period for the subject petitions?

The current comment period starts (June 16, 2015) and ends (September 8, 2015) during a time when many interested parties are involved in international travel, conferences and vacations. The issue is extremely important and has the potential to significantly affect projects involving billions of dollars worth of expenditures.

A 90 day extension of the comment period would help to ensure better public participation in a consequential decision process.

Best regards,
