Subject: RE: RE: Re: Blood Bank of Alaska, Inc. License No. 50-29114-01 Amendment Request dated March 27, 2015

Thanks Mr. Harper for the "heads-up". Based on my email below, please note that I will void the amendment action dated March 27, 2015.

Please submit documentation of irradiator specific training including course outline, letter of attestation, and submit an applicable response in "response from applicant" section of NUREG-1556, Vol. 5, Item 7, 8.7.1 (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v5/>), as appropriate. When submitting this information, please state that this is a continuation of Mail Control # 586616.

Thanking you in advance for your response in this matter,

Jackie

Ms Cooke,

I wasn't able to obtain the old license, but I have arranged to receive irradiator specific training from the facility's RSO. The training will be accomplished and documented by the end of week. Letter of attestation from the RSO will follow.

Ms Cooke,

I have so far been unable to get either the facility or the State of KS to assist me in getting a copy of the license. I will call the State again Tues morning.

Good Afternoon Mr. Harper: Please give me a status update on whether you will be able to send me a copy of a blood irradiator license that has you named as RSO. Please note that if you cannot submit a response to me by tomorrow, June 30th, then I will have to void your amendment Request and Mr. Scanlon, CEO of Blood Bank of Alaska, Inc. will need to resubmit your request showing you are qualified by training and experience or submit another request when you have a qualified RSO who meets the training and experience requirements in accordance with the guidance found in NUREG-1556, Vol. 5 as referenced below.

Ms Cook,

I am attempting to get a copy of a license that has me named as RSO for a facility that had a blood irradiator. I haven't had any luck getting the facility to send me the requested copy, so I am requesting it through the State of KS.

Mr. Harper: Per the direction of Mr. Robert Scanlon, CEO, of Blood Bank of Alaska, Inc., I was told to direct questions/comments regarding the amendment request to name you as Radiation Safety Officer (RSO) for their self-shielded blood irradiator. In the amendment request dated March 27, 2015, it was stated that you are/has been named RSO on a number of broad scope medical licenses. However, the license submitted with the amendment request was the Colorado Department of Public Health & Environment Radioactive Materials License for Mercy Regional Medical Center which appears to authorize only uptake, dilution, or excretion studies which is not adequate. Please submit a copy of one of the broad scope medical licenses listing you as an RSO

for which the same/similar manufacturer and model self-shielded irradiator that Blood Bank of Alaska, Inc., License No. 50-29114-01, is authorized. Please note that NUREG-1556, Vol. 5, *Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Self-Shielded Irradiator Licenses*, dated October 1998 (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v5/>) is the current guidance used for self-shielded irradiator licensees, specifically 8.7 Item 7, 8.7.1.

Please submit a copy of the broad scope medical license with self-shielded irradiator authorization listing you as the RSO or submit an applicable response in "response from applicant" section of NUREG-1556, Vol. 5, Item 7, 8.7.1 as soon as practical but no later than Monday, June 22, 2015. In addition, please include Mr. Scanlon in your email response so he can be aware of the request for additional information.

Please do not hesitate to contact me at your convenience if I can be of further assistance regarding the above.

Sincerely,

Ms. Jacqueline "Jackie" D. Cook
