

## Submittal of Revised QA Manual

Enclosed herewith please find "Quality Manual based on U.S. Nuclear Regulations" (ESC Procedure N-G000) which has been revised from Rev. P to Rev. R. (ESC Procedure N-G000-P(R0))

### 1. Outline of the revision

- 1) Changed the document number of the Quality Manual.
- 2) Revised ESC N-G000, revision P, which was submitted to the NRC as ARQ-14P001-P(R1), to revision R(ESC Procedure N-G000-P(R0)) due to the appointment of a new Senior General Manager and a change to the English translation of the ESC's organization names.

### 2. Revision Details

- 1) Changed the document number of the Quality Manual.  
Before change: ARQ-14P001-P  
After change: ESC Procedure N-G000-P
- 2) Revised ESC N-G000, revision P, which was submitted to the NRC as ARQ-14P001-P(R1), to revision R(ESC Procedure N-G000-P(R0)) due to the following reason.

The appointment of a new Senior General Manager and a change to the official English translation of managerial positions as of April 1, 2015.

The outline of the revision R of ESC Procedure N-G000 is as follows. Regarding the detailed information, please see the revision history of ESC Procedure N-G000-P(R0).

- (1) Obtained the new Group Vice President-General Manager's signature in the "Quality Policy Statement" page.
- (2) Removed the Nuclear Power Plant Maintenance Management Department from Part II Section 1.1 "Responsibilities and Authorities" and Figure 1-1 "ESC QA Organization" due to the transfer of the department's functional responsibilities to the Nuclear Power Department.
- (3) Group Vice President-General Manager → Senior General Manager  
Changed the English title of the "Group Vice President-General Manager" to "Senior General Manager".
- (4) In Section 1.2, specified the use of official English titles of managerial positions which are defined in the relevant MELCO Corporate Procedure and listed obsolete titles that shall be read as the current titles.
