Summary - Category I Fatigue Proposal for Security Officers

Subject: B&W NOG-L and NFS Revised Security Officer Attentiveness Proposal

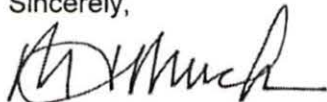

Dear Mr. Baker:

Babcock & Wilcox Nuclear Operations Group, Inc., Lynchburg (B&W NOG-L) and Nuclear Fuel Services, Inc. (NFS) hereby submit a revised Security Officer Attentiveness Proposal for consideration by the Nuclear Regulatory Commission (NRC). The revised proposal addresses open issues discussed on May 12, 2015 during the closed meeting summarized in Reference (2).

In the event that the revised proposal is accepted by the NRC in lieu of continuing rulemaking, B&W NOG-L and NFS are prepared to submit, within 30 days of formal notification of the NRC acceptance, revisions to their respective Physical Protection Plans that incorporate the Security Officer Attentiveness Proposal. The Physical Protection Plan revision would commit the applicable site to achieve full compliance with the Security Officer Attentiveness Proposal requirements within twelve months of the date of the revision.

If you have questions or require further information, please contact Andrew Rander, the B&W NOG-L Security Department Manager at 434-522-6059, or via email at [agrander@babcock.com](mailto:agrander@babcock.com) or Tom Evans, the Nuclear Fuel Services Security Director at 423-743-1704, or via email at [tpevans@nuclearfuelservices.com](mailto:tpevans@nuclearfuelservices.com).

Sincerely,

B. Joel Burch  
Vice President and General Manager  
Babcock & Wilcox
