SUBJECT: RE-SUBMITTAL OF AREVA INC. APPLICATION FOR APPROVAL OF THE
SPENT FUEL CASK DESIGN FOR THE NUHOMS® EOS SYSTEM, DOCKET
72-1042– ACCEPTED FOR REVIEW (TAC NO. L25028)

Dear Mr. Triska:

By letter dated June 16, 2015, you resubmitted an application for approval of the spent fuel cask design for the NUHOMS® EOS System, Docket 72-1042. Staff reviewed the application to determine if the application contains sufficient technical information in scope and depth to allow the staff to complete the detailed technical review.

This letter acknowledges acceptance of your application. The application appears to contain the information needed for our technical review. We have established a schedule for the review. The schedule allows for staff to issue a request for additional information (RAI) in October 2015 and a safety evaluation report in May 2016, based on the applicant responding to RAIs in December 2015. If no RAI is needed, and based on the staff's evaluation, the approval may be issued at approximately that time. In general, no additional changes to the application should be submitted except for changes resulting from your response to an RAI.

If you have any questions regarding this matter, please contact me at (301) 415-0262.

Sincerely,

/RA/
