Good morning Wren,

Thanks for clarifying the discrepancy. I am copying Michel Call on this e-mail for his awareness. We will wait for you formal submittal of this information,

Sincerely,

*Norma Garcia Santos*

Hi Norma,

After looking into Mike Call's question, we have figured out why he can't get from the WBDP assembly drawings to the upper cask assembly drawing. We revised the upper cask assembly drawing (i.e., 423-843) in 2013 to reference the WVDP 630087-501 drawing but we missed incorporating it into the submittal package. I am assume Mike is looking at Rev. 3 of this drawing. What he needs is Rev. 5. I am attaching it for convenience to this email. Since this requires updating the list of license drawings in the SAR and proposed CoC changes, I would like to formally submit it with the supplement package we have discussed after all the teleconferences are over. Sorry for an inconvenience with this omission.
