Subject: [External_Sender] URI Update

Dear Ron –

An update on our progress on Churchrock

- The Navajo Nation has formed a Presidential commission on Uranium Mining and Remediation, as previously discussed
- The Navajo Nation elected and installed a President last month

With this change in Navajo Status, our intention is to now arrange a first meeting with the new commission and begin discussions with them on how we might proceed. We expect to contact them in late July for a Q3 meeting, and will update you on any progress with them at end Q3.

Many thanks for your continued support of our efforts. Please contact me with questions.

Christopher M. Jones
