**Subject:** Industry Feedback to Changes Proposed for Mechanical Portions of NRC Guidance for Second License Renewal

**Project Number: 689**

Dear Mr. Miller:

On May 7, 2015, members of the NEI License Renewal Task Force (LRTF) attended a public meeting with the U.S. Nuclear Regulatory Commission (NRC) staff on proposed changes to mechanical portions of license renewal guidance to account for subsequent license renewal (SLR).

On behalf of the nuclear energy industry, the Nuclear Energy Institute (NEI)<sup>1</sup> is providing the attached information for NRC consideration. We appreciate the opportunity to provide comments for your consideration, as well as maintaining open discussions regarding the proposed changes to the mechanical portions for the new SLR GALL and would appreciate the opportunity to continue the technical dialogue with the NRC staff.

<sup>1</sup> The Nuclear Energy Institute (NEI) is the organization responsible for establishing unified industry policy on matters affecting the nuclear energy industry, including the regulatory aspects of generic operational and technical issues. NEI's members include all entities licensed to operate commercial nuclear power plants in the United States, nuclear plant designers, major architect/engineering firms, fuel cycle facilities, nuclear materials licensees, and other organizations and entities involved in the nuclear energy industry.
