Subject: [External_Sender] RE: Opportunity to review and comment on an NRC information collection "Requests to Agreement States for Information" (3150-0029)

Stephen,

The OAS Board provides the following responses to your questions:

1. Yes. The information requested from Agreement States is necessary for the NRC to perform its functions and has practical utility.
2. Don't know but defer to the NRC estimates.
3. Only one item, provide the Agreement States with as much time as possible to reply when necessary.
4. Provide information prior to the request being submitted allowing the Agreement States time to prepare and allow necessary time to respond.

Mike Welling

OAS Chair

Subject: Opportunity to review and comment on an NRC information collection "Requests to Agreement States for Information" (3150-0029)

The Nuclear Regulatory Commission recently published a Federal Register Notice announcing our intent to submit an information collection request to the Office of Management and Budget (OMB) for "Requests to Agreement States for Information" (3150-0029). A supporting statement describing the requested information is available at <http://regulations.gov> by searching docket NRC-2015-0032.

As a potential respondent to this information collection, we are interested in your feedback.

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

Comments can be submitted by going to <http://www.regulations.gov> and searching for Docket No. NRC-2015-0032. Please note that comments will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. You can also, send your comments to me directly.

If you have any questions regarding this correspondence, please contact me via email or telephone.

Thank you,

Stephen Poy
