Subject: NRC Notification of State of Florida Regarding Turkey Point License Amendment - Technical Specifications Surveillance Frequencies

Good Afternoon Ms. Becker,

The U.S. Nuclear Regulatory Commission (NRC) is about to issue license amendments for the Turkey Point Nuclear Generating Unit Nos. 3 and 4. In accordance with Title 10 of the *Code of Federal Regulations*, Section 50.91(b), I am notifying you of the proposed issuance of these amendments.

Please reply if the State of Florida has comments on the following licensing action submitted to the NRC by Florida Power & Light Company (the licensee): "Application for Technical Specification Change Regarding Risk-Informed Justifications for the Relocation of Specific Surveillance Frequency Requirements to a Licensee Controlled Program," dated April 9, 2014 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML14105A042), as supplemented (ADAMS Accession Nos. ML14252A228, ML15069A153, and ML15113A311).

The associated proposed no significant hazards consideration for this amendment request was published in the *Federal Register* on May 12, 2015 (80 FR 27199).

Your response is requested by June 23, 2015. If you have any questions, please call me at (301) 415-0489.

Thank you,

Audrey Klett
Project Manager
U.S. Nuclear Regulatory Commission
