The teleconference was conducted for GEH to discuss their proposed responses to the Request for Additional Information for the special authorization request for the Model No. 2000 Package sent on April 3rd, 2015. GEH discussed their proposed responses on thermal, containment, structural and materials. The NRC staff gave feedback on the acceptability of the proposed responses, and on how to provide the responses by incorporating them into a revised application. Staff also discussed the strategy on timing the submittal for the RAI responses, as well as an expected second round of RAIs. Finally, NRC staff advised GEH on the renewal process for the certificate of compliance, and on the best timing to submit their renewal request.
