**RE: Termination of Quality Assurance Program Approval for Radioactive Material Packages
No. 0348 (Docket No. 71-0348 / Expiration Date: October 31, 2015)
University of Michigan**

Document Control Desk:

Please note that the University of Michigan (U-M) is requesting termination of the Quality Assurance Program Approval for Radioactive Material Packages No. 0348, Revision 8 (Docket No. 71-0348). This QA program was established in support of the U-M Ford Nuclear Reactor (Facility Operating License No. R-28 / Docket No. 50-02).

Since the Ford Nuclear Reactor has been decommissioned and the Facility Operating License terminated (April 2, 2015), there is no longer a need for the U-M to maintain Quality Assurance Program Approval No. 0348.

Thank you for your time and consideration in this request. Please do not hesitate to contact me at Radiation Safety Service / OSEH [(734) 647-2251 or drisc@umich.edu] should you have any questions or comments regarding this request.

Sincerely,

Mark L. Driscoll
