**Subject:** [External\_Sender] No more Nuclear Plants t Turkey Point

The absurdity of adding more Nuclear Plants at Turkey Point is beyond comprehension.

To collect additional Nuclear waste material at that site, without a method of disposal, is irresponsible.

FPL already has problems cooling the existing facilities and is using millions of gallons of fresh water from the aquifer to ameliorate their existing cooling problem.

To add more capacity, which will require yet more water to cool the site, is irresponsible.

The location is vulnerable to Hurricanes, sea level rise and terrorist attack.

By all measures this proposal should be rejected.
