

NTTF Recommendation 2.1

Seismic

July 15, 2015

Andrea Kock, Diane Jackson,
Mohamed Shams, Nick DiFrancesco

Office of Nuclear Reactor Regulation
Office of New Reactors

Update on SPRA Reassessment

- Reassessment discussed during the May 21, 2015, public meeting
 - NRC provided opportunity for feedback on risk-informed criteria considered for some Group 2 and most Group 3 plants
 - Based on licensee assessments, a few licensees are discussing with NRC plans to provide supplemental information
- NRC interactions with licensees are ongoing
 - Completed a public meeting on July 14, 2015, regarding the Browns Ferry units
 - Submittals are expected from licensees no later than July 31, 2015

SPRA Reassessment, Part 2

- Next Steps
 - Assessment of additional licensee insights
 - Document rationale for SPRA relief
 - Letter issuance is targeted for late Aug / early Sept dependent on timing and complexity of licensees supplements

HF Feedback

- Staff supportive of licensee use of EPRI report
- No additional comments expected
- Work remains on development of submittal template in early 2016
 - Level of detail supportive of staff review
 - Develop examples/details to clarify equipment used to reach safe and stable state
- NRC endorsement letter expected late August 2015
