Facility Operating License Nos. NPF-11 and NPF-18  
NRC Docket Nos. 50-373 and 50-374

**Subject:** Request for Schedule Change Related to Advisory Committee on Reactor Safeguards (ACRS) Subcommittee Review of LaSalle County Station, Units 1 and 2, License Renewal Application (TAC Nos. MF5347 and MF5346)

**References:** 1. Letter from Michael P. Gallagher, Exelon Generation Company LLC (Exelon), to NRC Document Control Desk, dated December 9, 2014, "Application for Renewed Operating Licenses"

2. Letter from Christopher G. Miller, US NRC, to Michael P. Gallagher, Exelon, dated January 26, 2015, "Determination of Acceptability and Sufficiency for Docketing, Proposed Review Schedule, and Opportunity for a Hearing Regarding the Application from Exelon Generation Company, LLC, for Renewal of the Operating Licenses for LaSalle County Station, Units 1 and 2 (TAC Nos. MF5347 and MF5346)"

In Reference 1, Exelon Generation Company, LLC submitted the LaSalle County Station (LSCS), Units 1 and 2, License Renewal Application (LRA) to the Nuclear Regulatory Commission (NRC). In Reference 2, the NRC staff provided its safety and environmental review schedule for the LSCS LRA, including a milestone for ACRS Subcommittee review of the LRA in March 2016.

Due to scheduler considerations associated with an LSCS refueling outage, Exelon requests that the ACRS Subcommittee review be changed from March 2016 to April 2016. We are optimistic that this change will not affect the overall schedule for completion of NRC staff LRA review, but request that the staff review this request and advise us regarding 1) whether this

schedule change request can be accommodated, and 2) whether any other milestone changes are necessary.

If you have any questions, please contact me at 610-765-5958.

Respectfully,
