**LEVY NUCLEAR PLANT, UNITS 1 AND 2  
DOCKET NOS. 52-029 AND 52-030  
SUBMITTAL OF REVISED DOCUMENTS ADDRESSING CONTAINMENT CONDENSATE  
RETURN COOLING DESIGN**

Reference: Letter from Christopher Fallon (DEF) to Nuclear Regulatory Commission (NRC), dated May 5, 2015, "Response to NRC RAI Letter 124 – SRP Section 6.3, and Supplement 6 to Submittal of Exemption Request and Design Change Description for Departure from AP1000 DCD Revision 19 to Address Containment Condensate Return Cooling Design," Serial: NPD-NRC-2015-015

Ladies and Gentlemen:

Duke Energy Florida, Inc. (DEF) submitted, as part of the letter referenced above, Westinghouse reports documenting the analyses for the Containment Condensate Return Cooling Design. Since Appendices B of these reports have been revised to address all DCD changes resulting from this design change, as discussed with the NRC staff, DEF hereby submits the revised Westinghouse reports.

Enclosure 1 to this letter (proprietary) consists of the report, APP-GW-GLR-161 Revision 3, "Changes to Passive Core Cooling System Condensate Return." Enclosure 2 contains a redacted, non-proprietary version of the report that is identified as APP-GW-GLR-607 Revision 3.

Changes to the Levy Units 1 and 2 Combined License Application (COLA) resulting from the revised condensate return reports, beyond those previously submitted to the NRC, will be included in a future update of the COLA.

As Enclosure 1 contains information proprietary to Westinghouse Electric Company, LLC, it is supported by an affidavit signed by Westinghouse, the owner of the information. The affidavit sets forth the basis on which the information may be withheld from public disclosure by the Commission and addresses with specificity the considerations listed in paragraph (b)(4) of Section 2.390 of the Commission's regulations. Accordingly, it is respectfully requested that the information (Enclosure 1) which is proprietary to Westinghouse be withheld from public disclosure in accordance with 10 CFR Section 2.390 of the Commission's regulations. Westinghouse's Application for Withholding Proprietary Information from Public Disclosure CAW-15-4240 and accompanying Affidavit, and Proprietary Information Notice and Copyright Notice are provided as Enclosures 3 and 4, respectively.

Correspondence with respect to the copyright or proprietary aspects of the items listed above, including the supporting Westinghouse affidavit should reference CAW-15-4240 and should be addressed to J. A. Gresham, Manager, Regulatory Compliance, Westinghouse Electric

I declare under penalty of perjury that the foregoing is true and correct.

Executed on July 14, 2015.

Sincerely,

Christopher M. Fallon
