General Comment

No more poison machines! I have family in Florida, and am very aware of the high radiation levels they are being exposed to daily! Miami has had rad levels above 450 counts per minute almost daily! anything above 50 cpm is shelter in place! People need to check netc.com to know what we are all being poisoned with at present, and go to enenews.com to find out just what is coming your way from the nuclear power plants already spreading their poison every time they refuel! No to more cancer machines, let's go solar from now on!
