SUMMARY

1. Please confirm that all licensed material must be placed in storage.
2. Please indicate if you possess sealed sources/devices. For each sealed sources/devices, please provide the manufacturer, model number, isotope, activity and date of last leak test.
3. Please confirm that you will not use your licensed material for any purpose, pending disposal or authorization to restart.
4. Please confirm that the storage location for your licensed material will be in storage facilities already approved in your license. If the storage location is different, please provide a diagram and security information for the facility.
5. Please indicate who will be responsible for maintaining control of the licensed material while it is in storage. The responsible individual should have a working knowledge of basic radiation safety practices and the regulatory requirements associated with the material being stored.
