Good morning. I have reviewed the items provided. I note that both licenses are for California, which is an agreement state not covered by your NRC license. Please provide licenses for these physicians for NRC States where they will be providing supervision and authorized user responsibilities. Alternatively, you may commit that these physicians provide authorized user responsibilities when you provide services at federal facilities within California.

In addition, I note that the delegation of authority submitted does not include a delegation to make statements on behalf of management for NRC licensed activities. Please submit a letter with the signature of senior management to endorse this amendment request to the NRC license. Alternatively, you may submit a revised delegation of authority that includes this allowance.

Thank you for your assistance,

Good Morning Ms. Lanzisera,

Thank you for your letter regarding our request to add Authorized Users to the Alliance NRC permit. I have attached the Medical licenses for these physicians. I have also attached a Delegation of Authority signed by Alliance senior management, giving me the authority to request these types of changes.

Drs. Bobba and Bernard are already listed as Authorized Users on NRC permit number 04-01935-03. If you are need of any further information or assistance, please do not hesitate to contact me.

Sincerely,  
Kay Kassel

The NRC's Safety Culture Policy Statement became effective in June 2011.
