## General Comment

I move that the Combined License application for Turkey Point Nuclear Plant, Unit Nos. 6 and 7 be denied. Because of the ecological sensitivity of the proposed area and the high human, animal and fish life usage of the waters and land areas of Biscayne Bay and the nearby Everglades Park and aquifer, the proposed nuclear reactors and generators would produce prohibitive amounts of contamination of the waters and land. Therefore, the approval and funding of this proposal needs to be denied due to the Chemical and environmental impacts on life and health within the proposed project areas.
