Gentlemen:

Subject: Renewal Request for Export License No. XSNM 3697/01 (Revised)

Ref. 1. Letter, L. J. Maas to US Nuclear Regulatory Commission; "Renewal Request for Export License No. XSNM 3697; May 6, 2015

Enclosed is a revised request for renewal of NRC Export License XSNM 3796/01 authorizing the export of natural and enriched uranium in various forms from AREVA Inc.'s Richland facility to intermediate and ultimate foreign consignees within the EURATOM community. Consistent with the original referenced May 6 submittal, this revised application extends the expiration date from its current December 31, 2015 to the proposed December 31, 2021. Other changes to the license are highlighted on page 3 of the license application. Those changes are the same as those listed on the referenced application except that the Box 8 information on intermediate foreign consignees has eliminated the reference to "other nuclear fuel cycle facilities located within EURATOM" and replaced it with specific information on AREVA's Romans facility.

Authorization for Payment by Credit Card totaling \$3,100.00 is enclosed to cover the cost of the application. This is supplemental to the \$1,400.00 authorization submitted with the original May 6 application.

If you have any questions, please contact me at (509) 375-8537.

Best Regards,

A handwritten signature in black ink, appearing to read 'L. J. Maas', is written over a light blue horizontal line.
