SUBJECT: NOTICE OF ERRATA FOR THE FINAL ENVIRONMENTAL ASSESSMENT FOR
THE LICENSE RENEWAL OF CROW BUTTE RESOURCES, INC.'S SOURCE
MATERIAL LICENSE NO.: SUA-1534 (DOCKET NO.: 40-08943)

Dear Mr. Teahon:

The U.S. Nuclear Regulatory Commission (NRC) staff has completed an errata sheet for the final environmental assessment (EA) prepared for the license renewal of Crow Butte Resources, Inc.'s (CBR) Source Material License No. SUA-1534. Following publication of the EA, the NRC staff identified an error in the EA regarding the characterization of the terms of CBR's National Pollution Discharge Elimination System permit for land application of treated process wastewater. The errata sheet does not change the staff's conclusions in the EA or the Finding of No Significant Impact. Enclosed is a copy of the errata sheet.

The EA has been publicly available in the NRC's Agency-wide Documents Access and Management System (ADAMS), searchable under ML14288A517, since it was first published in October 2014. The EA is also available on the project webpage at: <http://www.nrc.gov/info-finder/materials/uranium/licensed-facilities/crow-butte.html>. The EA has now been amended to include a copy of the errata.

If you have any questions regarding this matter, please contact the NRC Environmental Project Manager for the environmental review of the Crow Butte License Renewal, Mr. Nathan Goodman at 301-415-0221 or via email at: Nathan.Goodman@nrc.gov.

Sincerely,

/RA/
