Subject: NRC Notification of State of Florida Regarding St. Lucie License Amendment - Revise or add actions to preclude entry into limiting condition for operation (LCO) 3.03

Good Afternoon Ms. Becker,

As a follow-up to our phone call today, the U.S. Nuclear Regulatory Commission (NRC) is about to issue license amendments for the St. Lucie Nuclear Plant, Units 1 and 2. In accordance with Title 10 of the Code of Federal Regulations, Section 50.91(b), I am notifying you of the proposed issuance of these amendments.

Please reply if the State of Florida has comments on the following licensing action submitted to the NRC by Florida Power & Light Company, et al. (the licensee): "Application to revise technical specifications to adopt TSTF-426, "Revise or Add Actions to Preclude Entry into LCO 3.0.3 – RITSTF Initiatives 6b & 6c, "Using the consolidated line item improvement process," dated August 7, 2014 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML14225A630), as supplemented by letters dated February 20, 2015 (ADAMS Accession No. ML15065A235), and May 21, 2015 (ADAMS Accession No. ML15154B051).

The associated proposed no significant hazards consideration for this amendment request was published in the Federal Register on March 17, 2015 (80 FR 13908).

Your response is requested by July 24, 2015. If you have any questions, please call me at (301) 415-0489 or email me at audrey.klett@nrc.gov.

Regards,

Audrey Klett
Project Manager
