Re: **RADIOLOGICAL SURVEY & REMEDIAL SERVICES, LLC
REQUEST FOR TRANSFER OF LICENSE TO UP-SIDE
RADIOLOGICAL SERVICES, LLC; MATERIALS LICENSE NO. 27-
29309-01, DOCKET NO. 030-37835**

Dear Director:

Radiological Survey & Remedial Services LLC (RSRS) is making a request pursuant to NUREG-1556 Volume 18, Appendix F to transfer ownership and control of the Type-A Broadscope License to Up-side Radiological Services, LLC (USRS), a joint-venture (JV) between RSRS and Up-side Management Company of North Carolina.

1. The name of the new licensed organization is Up-side Radiological Services, LLC. The EIN of the firm is 47-4441287.
2. The primary business address is 324 E. Third Street, Jacksonville, FL, 32206. Mr. Brian Henderson, the licensee's current Radiation Safety Officer will remain in possession of all license files and materials, and he may be reached at by telephone at 415.297.2927. The primary location for all records associated with the license will be 7380 West Sand Lake Road, Suite 500, Orlando FL 32819.
3. Mr. Brian Henderson will remain the Radiation Safety Officer, and Chairman of the Radiation Safety Committee overseeing the license. Mr. Victor Letourneaut, and managing venture (51% owner of the JV) has delegated all license authority to Mr. Henderson. There are no other individuals who will perform licensed activities.
4. The transferor, RSRS, will remain in business, and as co-owner of USRS, will continue to perform work under the license, as necessary, by subcontracting to USRS to utilize the license.
5. The transferor, RSRS, will own at least a 49% interest in USRS, and by agreement, will maintain control of the licenses Radiation Safety Committee, including providing the Radiation Safety Officer to the JV.
6. No changes to locations where radioactive materials are used, nor to other equipment and facilities are necessary. The JV has accepted for use all RSRS license procedures in their entirety.
7. Because the license is a service-providers license, there are no changes in the possession, location or storage of licensed materials. There are no materials currently under control of the license.

100 Washington St, Suite 200
Reno, NV 89503

8. There are no changes in the organization, location, facilities, equipment, procedures, or personnel that would require a license amendment.
9. All surveillance items and records, including surveys, calibration records, inventories, and accountability and audit records are current as of the date of this letter. The licensee has not utilized the license in more than two years, and records of all previous activities have been archived with the Radiation Safety Officer.
10. There are no records pursuant to Item 10 of Appendix F.
11. There are no facilities currently maintained under the license.
12. Decommissioning plans are not required under the license because the license is for services incidental to decontamination and decommissioning of other licensees.
13. The transferee agrees to abide by all commitments and representations previously made to the NRC by RSRS. There are no open inspection items, and the transferee agrees to accept responsibility for any resulting enforcement actions for inspection items that are discovered during previous periods.
14. USRS and RSRS agree to transfer control of the license, including any activities, and USRS is aware that there are no open inspection items; USRS agrees to accept responsibility for possible resulting enforcement actions for items that occurred during RSRS's utilization of the license.
15. USRS commits to abide by all constraints, conditions, requirements, representations, and commitments identified in the existing license.

If you have any additional questions, please don't hesitate to call Mr. Brian Henderson or Mr. Victor Letourneaut at (415) 297-2927.

Regards,

Brian Henderson
Radiation Safety Officer
