Saxonburg, PA 16056

SUBJECT: BRAYMAN CONSTRUCTION CORPORATION, VOIDANCE OF APPLICATION
FOR LICENSE AMENDMENT, CONTROL NO. 586863

Dear Mr. Rihel:

This refers to the subject application dated April 16, 2015, for an Amendment to your material license. On May 29, 2015, I informed you that the documentation of your training for Radiation Safety Officer (RSO) on a portable gauge license does not meet the NRC criteria for an RSO for a portable gauge license. I called you again on June 24, 2015, to remind you to provide me with the required training documentation. During these telephone discussions you informed me that you will not be able to provide me with the training documentation required to complete the requested action for some time. You also confirmed that the current RSO (Jeremy Walls) is still employed with your company.

Based on the information that you provided during our telephone discussion, we have voided your request for an amendment to your license. This action is taken without prejudice to the resubmission of your request.

Sincerely,

Original signed by Sattar Lodhi
