1725 23rd Street, Suite 100
Sacramento, CA 95816

SUBJECT: SECTION 106 CONSULTATION FOR LICENSE NO.: DPR-7, HUMBOLDT BAY
POWER PLANT UNIT 3 LICENSE TERMINATION PLAN
(DOCKET NO.: 50-133)

Dear Ms. Forrest:

In response to your e-mail dated March 16, 2015, which responded to the U.S. Nuclear Regulatory Commission (NRC) Section 106 consultation letter of February 18, 2015, the following items are enclosed:

- Maps of the area of potential effect (direct and indirect);
- Cultural Resources Study for the Pacific Gas & Electric Company's (PG&E) Humboldt Bay Power Plant (HBPP), Independent Spent Fuel Storage Installation (ISFSI) Licensing Project, PAR Environmental Services, Inc., 2003;
- Cultural Resources Inventory and Evaluation, HBPP Decommissioning Canal Remediation Project, PG&E 2013;
- Cultural Resources Monitoring Report and Recommendations, HBPP Decommissioning, Humboldt County, CA. DZC Consulting 2013; and
- Pertinent correspondence between the NRC; and the California Office of Historic Preservation (CA OHP).
 - Letter from Mr. Scott C. Flanders to Mr. Milford "Wayne" Donaldson, dated September 29, 2005, and
 - Letter from Mr. Donaldson to Mr. Flanders, dated October 25, 2005.

The two letters identified above, between the NRC and the CA OHP, are in reference to the HBPP Unit 3 ISFSI. Upon recent inquiry, it was determined that PG&E had misinterpreted the CA OHP October 25, 2005 letter to be a concurrence of eligibility for the HBPP Unit 3 facility, when in fact, there was no such concurrence. In this regard, we are aware of no correspondence from CA OHP that concurs in any eligibility determination for HBPP Unit 3. The statement in our letter dated February 18, 2015, which noted the CA OHP's concurrence on

eligibility, was derived from a statement in the Historic American Engineering Report (HAER) developed by PG&E for the HBPP Unit 3 facility, HAER No.: CA-2293.¹

If you have any questions or comments, please contact Mr. Alan Bjornsen by telephone at 301-415-6954, or via email at: Alan.Bjornsen@nrc.gov.

Sincerely,

/RA/
