Elin	Defrin	Amenia	NY	UNITED STATES	It's time to make it go.
Jennifer	Catriana	baldwin	NY	UNITED STATES	Fukushima on the Hudson.... sigh. This plant too close to my residence. Do not want the risk of a meltdown.
Lillian	Mukai	Bayside	NY	UNITED STATES	Are you waiting for a great tragedy before shutting the damn thing down?
Diana	Dorer	Beacon	NY	UNITED STATES	Please hear us: we want Indian Point Nuclear plant closed NOW. Please. Before something really bad happens.
Babette	Brown	Beacon	NY	UNITED STATES	PLEASE stop putting our lives at risk! Shut down Indian Point now before we have one of the worst nuclear accidents in history. Replace the entire plant with a field of solar panels for utility-scale renewable energy. We New Yorkers in the Hudson Valley all the way down to the city do not want to die prematurely! Our gratitude for taking this brave step would be immeasurable. Thank you.
Anna	Sullivan	Beacon	NY	UNITED STATES	

Please use common sense to avoid a catastrophe. 30,000.000 cannot flee the radiation caused by a meltdown. With all due respect to Dr Kevorkian, i have seen no petition requesting a mass suicide posted anywhere. We live in one of the most beautiful places in the world. Let's keep it that way. From a dollars and cents perspective, tourism is a huge money maker for New York City and everywhere in the Hudson Valley. Chernobyl, Three Mile Island and areas around Fukushima in Japan have no tourists visiting. Genocide is bad for business. As a member of a Union since 1949, I think we should all work towards guaranteeing new employment for all the loyal workers at the Indian Point plant. It would also save their lives since the first meltdown will be fatal to anyone in the vicinity. This transcends politics. Radiation poisoning is an equal opportunity destroyer. Please use common sense and old fashioned American values and shut down the plant before it shuts us down.

This plant is a disaster waiting to happen. Shut it down for the safety and wellbeing of all living NOW. There are better and safer sources of energy. 30 MILES FROM NEW YORK IS TOO CLOSE FOR COMFORT WE SHOULD NOT HAVE NUCLEAR PLANTS ANYWHERE NEAR HIGHLY POPULATED AREAS SO CLOSE TO HOMES
Please exercise integrity, wisdom and courage as you make decisions that will affect future of life in Hudson River region and beyond.

Laura	North	Bronxville	NY	UNITED STATES	Scary!
Bozena	Grossman	Brooklyn	NY	UNITED STATES	Any nuclear power plant makes no sense, especially Indian Point that is located near NYC and have many problems !!! Shut It Down Now !!!!!!!!!!!!!!!!
Mark	McKennon	Brooklyn	NY	UNITED STATES	Even a 'small' or 'limited' accident resulting in a release of radioactive material will cause incalculable damage. Relicensing? This dinosaur needs to be taken off line, decommissioned and disassembled.
Isaac	Cameo	Brooklyn	NY	UNITED STATES	For something that generates only 5% of the region's energy needs, it seems rather unnecessary as it is, magnified by the risk of it standing on two fault lines.
Marcia	Bernstein	Brooklyn	NY	UNITED STATES	I live in New York City.
Harvey	Siederbaum	Brooklyn	NY	UNITED STATES	I think it is crazy to have a nuclear power plant, with it's known catastrophic potential in the event of an accident or terrorist action, so close to a major population area. It needs to be shut down NOW!
Joy E	Goldberg	Brooklyn	NY	UNITED STATES	I was actually going to say it's crazy having this place in just about THE most densely populated region in the U.S. Then I read the peition letter which ALREADY SAYS THIS.
Paulina	Sadowska	Brooklyn	NY	UNITED STATES	If a tragedy strikes millions of people will be affected. There is no Soalr spills. There is no wind spills... Invest into the future!

Cody	Baker	Brooklyn	NY	UNITED STATES	If the entire metro area of NYC had solar panels on our roofs, we wouldn't need to put the entire
Joseph	Rosta	Brooklyn	NY	UNITED STATES	populous at risk of the dangers this plant possesses.
Mike	Olshan	Brooklyn	NY	UNITED STATES	Indian Point is a menace! No more nukes.
Timothy	Warner	Brooklyn	NY	UNITED STATES	It is a hazard to me and to millions of others.
Susan	Sively	Brooklyn	NY	UNITED STATES	It should have never been built, God help us if it let's go.
Lisa	Siegel	Brooklyn	NY	UNITED STATES	The critical factor here is that there is no way, in the event of a nuclear accident, to evacuate New York City.
					the risks to the lives of millions of humans, animals and the environment far outweighs any benefits from keeping this unsafe power plant going. it has to be shut down ASAP.
					There is a great deal of radioactive waste that is haphazardly stored at Indian Point. We don't need more, as if this were the only danger! We have already seen catastrophes at nuclear power plants. What we need in New York State is to get the long planned wind farm on Long Beach, Long Island built already, and to build many, many more wind farms.
Sharon	Shoenfeld	Brooklyn	NY	UNITED STATES	An American inventor has designed a windmill - Migler Windmills - which is much more efficient than the windmills currently in use. It is also quiet and it does not kill birds. We need this all over our state - supporting American ingenuity and business, and clean, safe energy for a prosperous and healthy future. Let's make New York State a leader in clean, green energy, and let's please do it ASAP. Thank you for reading my comment.
Krissa	Schandelmaier	Brooklyn	NY	UNITED STATES	This is a terrible idea - for many, many reasons.
Barbara	Elovic	Brooklyn	NY	UNITED STATES	This plant is near a major population center and is constantly having technical problems.

Nancy	Cadet	Brooklyn	NY	UNITED STATES	This unsafe and poorly managed plant should be closed ASAP
George	Carter	Brooklyn	NY	UNITED STATES	Though the way New York City is going down the toilet as a cesspool for the 1%, maybe it should just explode. Were a Fukushima or Chernobyl type accident to happen at Indian Point, New York City would be uninhabitable. Imagine the consequence on the economy.
Joseph	Holdner	Brooklyn	NY	UNITED STATES	when are we going to green energy? we are overdue. let's get started already!
Anita	Brandariz	Brooklyn	NY	UNITED STATES	
Kristen	Reilly	Buffalo	NY	UNITED STATES	There has already been a number of significant accidents at these now 39- and 40-year-old facilities. Unit 2 is in extended operation after the expiration of its 40-year license period, and unit 3 expires Dec. 2015. Given the age of these plants, their close proximity to a fault line, their location in a densely populated region with roads that are unlikely to support its evacuation in a nuclear emergency, and its nearness to New York City with an impossible evacuation situation, Indian Point's operating license should not be renewed for another 20 years.
jessica	dahl	cornwall	NY	UNITED STATES	Nuclear officials once called the Indian Point Nuclear Power Facility 'an accident waiting to happen' - and now it has. please don't this happen again!
Fred	Remus	Croton on Hudson	NY	UNITED STATES	Seriously! I can almost spit to Indian Point from where I live.

Sunny	Armer	Croton on Hudson	NY	UNITED STATES	When Fukushima began to melt down, the NRC told all the Americans in Japan that it was dangerous to be within 50 miles of the reactors and the nuclear waste in the spent fuel pools. If I heard sirens right now, I'd have to get in my car and drive 45 miles. But in what direction? I have lived near Indian Point for almost 30 years. This last incident convinced me I have to move away; And I am going to.
Barbara S. Robin richie	Nadel	Croton-on-Hudson	NY	UNITED STATES	Shut down Indian Point NOW -- before a calamity! go solar. Putting this ancient plant in the middle of a huge population concentration is idiocy. Please. No more Nuclear Power Permits for Indian Point. We can do without it, but we can't deal with radiation poisoning, a plant meltdown or other tragic event that could have been prevented by closing the plant down. Be safe. Go Green and Go Clean. Stop the madness! Thank you.

Michael	Christopher	Garden city	NY	UNITED STATES	Shut Indian Point!!!! The plant rests upon two active fault lines, bringing to mind the 300,000 people forced to evacuate in Fukushima, Japan, after the 2011 earthquake caused a nuclear meltdown there. I live in the area that is endangered by this old and unnecessary plant. And I used to live in NYC. Time to shut down this accident waiting to happen and protect millions of people!
Martha	McCulloch	Gardiner	NY	UNITED STATES	There can be no evacuation. Everyone knows it. The plant did not get the required sign-off by the relevant representatives. Its obvious vulnerability make it an optimal target.

Robert Deborah Annie	Gray Reader Gorman Shalian	Glen Cove Goshen Hastings on Hudson Irvington	NY NY NY NY	UNITED STATES UNITED STATES UNITED STATES UNITED STATES	As a Nurse Practitioner, public safety is my domain. Anything negatively affecting a large number of people must be taken seriously. Indian Point provides power to a small percentage of New Yorkers, but has the potential to do untold damage and destruction to a vast number of us. The plant has been problematic since its start-up. We have the warning signs of failure, and it's time to shut it down NOW.
ingrid	piel	Jamaica	NY	UNITED STATES	NOW must not but could be too late. much too dangerous!!!!!! This should have been done years ago. It is very dangerous to have a nuclear plant on a fault line close to population. Please close this nuclear plant.
al	chazin	Kew Gardens Hills	NY	UNITED STATES	No exit for 30 million people living in the tri-state area make this plant's shutdown imperative. It is insane to allow such an old reactor to continue to function, given the very obvious dangers to millions of people. We must put everything we can into wind and solar energy; these technologies are not only available but competitive and safe. It is time to put the well-being of citizens and the future safety of humans ahead of the desires of greedy corporations.
Amy	Anderson	Kingston	NY	UNITED STATES	This plant should have been shut down years ago, it's past its usage life and is very dangerous where it is located. This plant would take out the whole tri-state area if it had an accident similar to what happened at Fukushima, Japan were to occur so please shut it down, thanks.
Anthony	Lasagni	Kingston	NY	UNITED STATES	

kathy	Carnel	Levittown	NY	UNITED STATES	<p>Indian Point has been around so long that it is no longer safe. I am 68 and toured it when I was a child. Even then they talked about the fact that it would age out and have to be shut down. I think that time has come.</p> <p>Nuclear contamination cannot be reversed. I have watched the documentary about Chernobyl and I also have seen the result of nuclear war. There are safer ways to provide energy without destroying the environment or living under the threat of irreparable damage.</p>
Antonia	Tancredi	LIC	NY	UNITED STATES	<p>It IS insane to mix nuclear power plants, large populations, and seismic fault lines. This plant should be decommissioned immediately.</p>
Marilyn	Miller	Livingston Manor	NY	UNITED STATES	<p>Nuclear energy is very dangerous. Let's commit to close down this plant now to avoid further contamination and potential . disasters in New York.</p>

Becky Shiflett</p> <p>The original 40-year operating licenses for units 2 and 3 expire in September 2013 and December 2015, respectively. Entergy has applied for license extensions and the Nuclear Regulatory Commission (NRC) is moving toward granting a twenty-year extension for each reactor. Unlike Fukushima, Japan... how do you evacuate New York City, Long Island, and New Jersey? How about Knocking down Indian Point and replace the reactors using windmills and solar cells in this area?</p>
Carolyn	Harris	Maspeth	NY	UNITED STATES	<p>Please shut it down. already much oil has spilt into the Hudson killing much marine life and who knows what else. It could eventually kill us. Shut it down now.</p>

Leslie	Stolfe	Milton	NY	UNITED STATES	I have never been in favor of nuclear energy. There are safer options like solar and wind.
Adriana	Paverman	Monroe	NY	UNITED STATES	Thank You for reading my letter.
Martha D.	Perlmutter	New City	NY	UNITED STATES	This is a radioactive dinosaur that should be extinct! Although I'm signing this, I grew up 1/2 mile from this plant and it was a central part of the economy of our community. We need renewable, non-polluting energy sources. But folks need to educate themselves about what their palate pleasure is doing to our plant. Stop or cut down on the amount of meat you consume. Animal agriculture is the most destructive industry facing the planet today. Going vegan is better than buying that hybrid car. For you, the animals, and the planet.
Margaret	Michael	New Paltz	NY	UNITED STATES	
Liz	Wassell	New Paltz	NY	UNITED STATES	I live in the Hudson Valley. But I might as well live in Westchester if this plant blows. Shut it down already. This plant should have been closed years ago!
Mark	Bernstein	New Paltz	NY	UNITED STATES	Please let's not continue to prerss our luck!
Tashann	Purvis	New Rochelle	NY	UNITED STATES	I actually live in NY, right in the area between Indian Point and NYC. For years I have been hearing about numerous issues it has been having, from sirens that don't work during emergency drills, to the latest involving a transformer fire at the plant. Quite frankly, it terrifies me and I really wish that they would just shut the place down already.

Bonnie	Brennan	New Windsor	NY	UNITED STATES	Just thought you might consider that Orange County and Ulster County, to name just two, also have humans that could be harmed. I know that Manhattan and Westchester have more important people in them than us mere country bumpkins. Thought I would share.
William	Worrell	New York	NY	UNITED STATES	Maybe someday this energy will be safe (and it's waste), that day appears to still be a ways off. Should we wait for another accident? I hope not!
Rosemary claudia	McSorley zangrillo	New York	NY	UNITED STATES	Close it NOW!
		New York	NY	UNITED STATES	2015!!!! NUCLEAR POINT!! GIVE ME A BRAKE 30 miles? RU kidding? I'm having a meltdown just thinking about it.
Gretchen	Berger	New York	NY	UNITED STATES	After many years...it is time to shut this old facility down. It is a risk and a risk to our National Security as well. Invest the money into more NYC Solar panels and wind power.
Douglas	Leland	New York	NY	UNITED STATES	Alien species had warned US GOV 50yrs ago NOT to engage in this type of power. Now question what sleeping types we have who are making horrific decisions on behalf of the masses- that is unsettling. Masses are already damaged by global intentional HAARP initiated JPN Nuk 'accident' and they will sue the US GOV who is responsible for HAARP, which is a 'weapon of mass destruction' that needs to be SHUT DOWN. It's only when a Political Leader is affected, then change is made, however, little do they know, they already have these toxins in their blood just from eating milk, seafood- farms that have fall out in USA via the atmospheric weather patterns. They too have a shorter life expectancy and perhaps that is best for the masses- to get them out of office via their unfortunate Deaths!

Grant	McKeown	New York	NY	UNITED STATES	Less then 30 from my home address.
Kathryn	De Lawter	New York	NY	UNITED STATES	Let's put our energies into renewable energies! Let's only 'go nuclear' by utilizing nuclear waste. Until that is understood, we are setting ourselves up for disasters. Think about it!
Richard P	Faust	New York	NY	UNITED STATES	Let's switch to wind, sun & river power.
mark	koppel	New York	NY	UNITED STATES	NO FUKUSHIMAS IN NEW YORK

Donna	Romo	New York	NY	UNITED STATES	<p>No more. Instead of subsidizing disaster-in-waiting energy plants like this, subsidize clean energy like solr and wind. It's so logical that it makes you wonder why it hasn't happened yet, even though we know its all about the power of these companies who owned these plants and their ability to influence the lawmakers.</p> <p>NRC will not reveal how much spent fuel is stored on site. But we know it's ca. 40-years worth. We also just learned that I.P. is on, not just one, but TWO seismic faults, and is at the highest risk for earthquake damage of all US nuclear plants -- just 25 miles from NYC (Bronx) the densest city in the US. I.P. is an outdated behemoth, now running on an expired license.</p> <p>Please also insist that the navy clean up the Long Island sound area that they polluted for many years. They should be held accountable.</p> <p>Risky business & an uneceesary threat!</p> <p>Should have been shut down long ago. Don't wait until it is simply too late!</p> <p>Shut it down NOW! It is recognized as the most rickety nuke plant in the nation, and is scheduled to be shut down. It leaks regularly into the Hudson river and sits between TWO earthquake faults. It makes like Fukushima and the entire tri-state area is a goner.</p> <p>The bad history of Indian Point has been known for a long time. Their most recent license should never have been granted. SHUT IT DOWN!!!</p> <p>The time is NOW to shut down Indian Point Nuclear Plant -- a catastrophe waiting to happen.</p>

Dan	Fullerton	Ossining	NY	UNITED STATES	I live about 9 miles from the IPNPP. I work every day to close the plant.

There is a High Pressure gas pipeline being installed near the plant, which will increase the danger of destroying the plant and 50 million residents in area. Aging nuclear reactors around the globe are subject to this steel embrittlement that is a measure of how prone the steel reactor vessel is to cracking. The metamorphous of the strong steel vessel into something as brittle and fragile as glass is due to the constant neutron bombardment from the chain reaction inside the nuclear core. ; While several U.S. nuclear reactor vessels are showing early signs of embrittlement, Entergy's Palisades nuclear plant is the most embrittled plant in the country. Located in Covert, Michigan, it is one of the oldest reactors in the world and now one of the most dangerous to continue operating due to its embrittled reactor vessel. Palisades owner, Entergy Nuclear Operations Inc. is attempting to take advantage of a 2010 regulatory change that allows embrittled nuclear plants to operate longer by analyzing the problem mathematically, rather than actually testing the material to accurately determine its strength. In the interest of nuclear safety, the Palisades reactor and all the aging reactors throughout the world should continue to be subjected to actual material testing just as they were originally designed to be

Bruce	Stanley	Hamburg	NJ	UNITED STATES	

maury	lubman	hohokus	NJ	UNITED STATES	The danger is unreal. We could have another Chernoble right here, in an area with a larger population.....it would kill the people and the water supply. Catastrophic event just waiting to happen.
Jose	Rosario	JERSEY CITY	NJ	UNITED STATES	Nuclear energy plants should be far from population Shut them down now.
Ken	Brimmer	Kearny	NJ	UNITED STATES	Makes an easy target for terrorists! Too many lives are at stake. Haven't we seen enough carnage from 9/11 already?
Linda	Rossin	Lake Hopatcong	NJ	UNITED STATES	It's just time to close this plant down.
adaria	armstrong	leonia	NJ	UNITED STATES	Please shut this old monster and potential threat to millions and the surrounding land, sea and air DOWN!!!!
Anthony	Yee	Leonia	NJ	UNITED STATES	This power plant is the same design as the ones at Fukushima and it sits on a fault line. This plant should have been shut down a long time ago.
Elizabeth	Abramowicz	Linden	NJ	UNITED STATES	Please keep us safe.
Christine M.C.	Money	Long Valley	NJ	UNITED STATES	Nuclear power plants are an ongoing threat no matter where the are sited, as no one in the world has never come up with any proper method of dealing with the radioactive waste in the spent fuel rods, probably because there isn't one. When you compound that with aged plants sited where they are capable of contaminating waterways, as Indian Point has just done and has done in prior instances, the writing on the wall should be heeded and the plant shut down.

Alexis	Vorob	MIDLAND PARK	NJ	UNITED STATES	<p>Stop playing Russian roulette with our environment and citizens! Look what just happened in California with this oil spill! All because big corporations and politicians want to make more money without any regard to the health of our planet, animals, plants and citizens. It's time to stop this now before we have a Nuclear accident too!</p> <p>This should not even be a question... Just do it for the safety of 'the people'! Is this not what the politicians are really supposed to do? To take care of the people. I know, I know, what is supposed to be and what 'is' do not even come close. CAN YOU SAY \$\$\$\$\$. Everything is about money. Enough is enough already. I am sick of all of this crap. how can people vote for people who vote to destroy instead of create. Is it the human condition and the Walmart nation. BIGGER, BETTER, MORE MORE MORE... It is like a disease. If disaster were to happen people would be in real trouble. They would not even know how to feed themselves. Where is the education? I am going to stop with this rant because it is making me too tense... Just do the right thing already...</p> <p>This plant should never have been built in the first place. Nuclear power is extremely dangerous, especially when they are owned and operated by corporations that take no responsibility for our safety or welfare. All they are concerned about is \$\$\$\$\$</p> <p>Indain Point represents an ongoing danger and desperately needs to be shut down.</p> <p>It should never have been built. Shut it down.</p>

Collin	Minert	Montclair	NJ	UNITED STATES	Really. . . this situation is far beyond any reasonable level of acceptable risk!
Elizabeth	Bain	Morristown	NJ	UNITED STATES	Keeping this plant open is just too risky!
Denise	Gomolka	New Egypt	NJ	UNITED STATES	Learn from Japan! Shut down Indian Point!
Sono	Arima	Newark	NJ	UNITED STATES	Shut it down
Stephanie	Eckert	Parsippany	NJ	UNITED STATES	Let's not wait for a disaster to happen. Please act now, and shut down Indian Point. Thank you.
dennis	marshall	PATERSON	NJ	UNITED STATES	Indian Point sits on a near or near an active fault zone, the Ramapo Fault! This plant needs to be deactivated asap. Unfortunately even when shut down it still poses a threat though not as bad. Nuclear power is UNSAFE because there is no sane way to store the waste by products. Remember people before profits! A little nuclear fallout can ruin your day.
Donna	Blair	Phillipsburg	NJ	UNITED STATES	shut the dam thing down
J	Gilbert	Pittstown	NJ	UNITED STATES	Nuclear power plants should not be located near large metropolises. This is just common sense! They pose too many possibilities for explosions and melt downs to threaten large populations.
					I live in Bergen County New Jersey south of Indian Point. I had an opportunity to stop by the Bergen County Police Office of Emergency Management once and saw a large map of the area on the wall with a series of concentric circles. I asked about the map. The center of the concentric circles was Indian Point and the circles represented possible fallout zones. There are over 900,000 thousand residents of Bergen County and about 1.2M work here and if something should happen that's a lot of people to evacuate. Time to shut the aging plant down and divest from nuclear power once and for all.
Carl	Oerke Jr	River Edge	NJ	UNITED STATES	

Janie	Horowitz	RIVER EDGE	NJ	UNITED STATES	What will take its place that will be environmentally safe?
Debra	Ayn	Roselle	NJ	UNITED STATES	Man is hell bent on destroying our beautiful and increasingly fragile World. Obviously they don't care only money matters in the scheme of things, and nothing has been learned from Fukushima Daiichi's disaster. All nuclear plants should cease operations. NO NUKES ARE GOOD NUKES! NO MORE PROFITS OVER PEOPLE!
Bruce	Rosenblum	South Amboy	NJ	UNITED STATES	I used to have to work at Indian Point, security was not all it should be, safety was not a priority at the site. There is no workable evacuation plan. Entergy cannot be trusted to report issues/problems to the NRC and they always try to minimize and cover up problems. There are millions of people within harms reach, this site should have been shutdown decades ago.
Robert	Candelmo	Vernon	NJ	UNITED STATES	Do the right thing. And look at the thousands of gallons of oil poured into the Hudson River. That says it all. How do you even clean that up?
Daniel JONATHAN	Nguyen ROWLAND	Warren WASHINGTON	NJ NJ	UNITED STATES UNITED STATES	THX
Joseph	Anderer	Weehawken	NJ	UNITED STATES	An unnecessary 'time-bomb'- I was in Japan the year of Fukushima and I have relatives who lived near 3 Mile Island, too. We should never expose people to these risks (exacerbated by the irresponsibility of the proprietors of these projects), and I think Indian Point is in a far-too-risky position to continue.

Shut the plant down forever. Indian Point is a sore, a cancer and a threat to our lives. Why do we always have to send petitions to get Washington and our leaders to wake up? Quit procrastinating on this critical issue!

Now if the time for good folks to do good things. These reactors are too dangerous to keep open; we have overcrowded pools of “spent fuel assemblies” and an electric room that flooded despite the operator being required to protect from that. Shut it down now!

This is too dangerous!

Gina	George	Banning	CA	UNITED STATES	Well, don't you know, we humans wait for things to happen and then we act. Good Luck changing the human mind-set!
Saran	Kirschbaum	Los Angeles	CA	UNITED STATES	Shut down, save town.
Stephanie	Harvey	MAGALIA	CA	UNITED STATES	What idiocy planned OR approved this to begin with?!
Evan	Roman	NATIONAL CITY	CA	UNITED STATES	Go solar.
Cheri	Brennen	Novato	CA	UNITED STATES	We don't need another major, nuclear power plant accident; two were too many.
Cecil	Corwin	SAN FRANCISCO	CA	UNITED STATES	holy christ!
Rosalind	Lord	San Francisco	CA	UNITED STATES	Switch to renewable energy instead.
Barbara	Mrozek	SAN FRANCISCO	CA	UNITED STATES	This should be part of economic revival related to infrastructure.
Mary	Crade	WOODLAND PARK	CO	UNITED STATES	It's the only sane thing to do!
Robert	Pavlick	Bridgeport	CT	UNITED STATES	How many realize that this plant is built on a Fault Line that runs through the Palisades ???
heidi	blechar	Darien	CT	UNITED STATES	a ticking time bomb!!!
margaret	hill	fairfield	CT	UNITED STATES	please shut this down
Natalie	Jarnstedt	Greenwich	CT	UNITED STATES	It's too old, too unsafe; we don't need a large-scale and far-reaching disaster at the front doors of all surrounding states, not just the 50 mile radius, which is horrible enough!
Demosthenes	Kostas	Greenwich	CT	UNITED STATES	Our country (as we know it today) will be destroyed if a Fukushima event occurs at Indian Point. Millions of Americans will die from cancers. not to mention the million of American refugees it will cause trying to avoid radiation deaths of their families
Leslie	Weinberg	Stamford	CT	UNITED STATES	Though a source of energy, this nuclear plant is too dangerous!

Maybeline	Lau	Trumbull	CT	UNITED STATES	Stop gambling with the lives of innocent people. A nuclear accident will have devastating effects on countless families for many generations. All the money in the world can not fix a nuclear disaster, ever! Please, work to shut down Indian Point Nuclear Plant immediately.
Leslie	Parent	HOLLY HILL	FL	UNITED STATES	Shut ALL OF THEM DOWN...They weren't BUILT to LAST THIS LONG! Putting bandaides on these places is going to KILL AMERICA. Along with the OIL TRAIN TRACKS RUNNING PAST OUR NUCLEAR MISSILE SILOS IN NORTH DAKOTA! Thanks for CARING ABOUT 'WE THE PEOPLE' So freaking MUCH! This is insane. A lot of taxpayer \$ lining pockets! And whose \$ would pay for clean-up and repair and promises from corrupt jerks? Why, YES! Us.
Mark	Holmgren	SAINT PETERSBURG	FL	UNITED STATES	WE don;t need dirty power and especially not one that is so close to a major metropolitan center. We need to invest in Clean energy.
Kaz	Thea	Hailey	ID	UNITED STATES	Our governments have to start taking responsibility for the well-being and welfare of the Living Beings and taxpayers of this country!!!
Sandra	Bowerman	PADUCAH	KY	UNITED STATES	I'm aware of how dangerous these old nuclear plants are. I want Pilgrim closed, too.
Alexandra	Grabbe	Wellfleet	MA	UNITED STATES	There is a pattern: nuclear problem/climate change deniers have the same agenda and don't need our support. Renewable energy does.
Jean	Newcomb	Greenbelt	MD	UNITED STATES	If we don't protect our environment, our environment can't protect us.
Thomas	Kurtz	Bath	ME	UNITED STATES	

Bob Kamia	Petermann C r	ELK RIVER PRESTON	MN MO	UNITED STATES UNITED STATES	<p>In MN we did not have any place to store the nuclear waste so we had to shut down our Monticello plant. Far as I know the material is still on the grounds in storage tanks of some kind. this was reported years ago and now no one reports on it.</p> <p>Nuclear power in any form is simply suicidal! Three Mile Island, Love Canal, is Indian Point the next name everyone will know? This is part of the reason I tell people that N.Y. is a good place to be FROM. (Buffalo to Montana)</p>
Debbie Dina	Phillips Smith	BUTTE NEWINGTON	MT NH	UNITED STATES UNITED STATES	<p>All nuclear plants should be shut down! we must stop building nuclear reactors & properly maintain those which already exist until they can be shut-down. it is insanity.</p>
dan	lehlbach	BEREA	OH	UNITED STATES	<p>This is just multiple layers of insanity. It should be removed ASAP.</p>
james	anderson	OH	OH	UNITED STATES	<p>The need for this plant is obsolete but if it's not shut down, it may make New York City, the economic engine of the state and the world, obsolete. Do the smart thing - shut it down!</p>
Mimi	Foust	Shaker Hts.	OH	UNITED STATES	<p>A nuclear catastrophe in New York would affect the whole nation. Please protect people and the environment by shutting Indian Point down.</p>
Estelle	Voeller	Medford	OR	UNITED STATES	<p>We can't afford to poison ourselves and the planet with this obsolete expensive power.</p>
JENNIFER	manning	spfd	OR	UNITED STATES	<p>We need safer energy sources than relying on nuclear power. Don't wait for disaster to happen!</p>
Deborah	Sisti	Bushkill	PA	UNITED STATES	<p>Shut Indian Point down now!</p>
christine	mcgrath	Eagleville	PA	UNITED STATES	<p>Power plants should not be situated on fault lines. There are currently two that sit on this fault line and Pa has had a small Earthquake in the past recent years, so you can't rightly say it is inactive. This is a disaster waiting to happen!!</p>

The	U. family	east	PA	UNITED STATES	GO TO SOLAR AND WIND POWER INSTEAD! This Indian point explosion has not been released over the media This is May 21st. They got away with dumping thousands of gallons into the Hudson River. Sign the petition, please dear God, sign it. Shut down Indian Point Nuclear Plant, just 30 miles from New York City!
glenda	uhl	greeley	PA	UNITED STATES	
Barbara	Wood	Philadelphia	PA	UNITED STATES	
Nicole	Elias	SHILLINGTON	PA	UNITED STATES	This is a no brainer Obama... get it together... Who is heavens name picked a site on a fault line? Nuclear power is no longer a viable option anymore with sustainable sources of power. Shut it down1
Kathleen	Buchanan	BRYAN	TX	UNITED STATES	
ej	norton	College Station	TX	UNITED STATES	It was a stupid idea in the first place to build a nuclear plant so close to a large city like New York in the first place. So guys, shut this plant down now. Yesterday, no one would have known. Today, the world is watching.
Rhonda	Graves	Fort Worth	TX	UNITED STATES	I used to live near by; in Croton on Hudson. To think of a nuclear calamity ever hitting that area and for only a lousy 5% of the power to New York City and Westchester County!!! The destruction of human, animal and plant life. What are you thinking? For all life, do the right thing!!!
Henry	Orgel	Charlottesville	VA	UNITED STATES	My name is Seala and I am ten years old. I am a member of Earth Guardians of Vermont. Please shut down this old and dangerous nuclear plant and give the children of today a future for tomorrow. Thank you.
Seala	Mardin	Ludlow	VT	UNITED STATES	President Obama, the Nuclear Regulatory Commission, and Governor Andrew Cuomo, Please shut down Indian Point Nuclear Plant, just 30 miles from New York City!!

Shut down all these insidious poisonous waste producing dangerous plants now!. A pathetic way to make energy.

Shut down the Indian Point Nuclear Power plant, which has recently had an accident, and is only 30 miles from NYC. R. McBride

I am surprised that a petition should even need to go out asking for the safety of the people and the environment from what could surely be an enormous catastrophe. The plant is built on fault lines you say??? Whom in their right mind thought this was a good idea? Why is this plant not shut down now? It has already proven it has not kept up on maintenance as shown by the May 9 explosion and the leak thousands of gallons of oil into the Hudson River. I ask if the Indian Point Nuclear Plant was held liable for the clean up costs to the environment, citizens and local indigenous wildlife. I absolutely feel that their water permit should not be renewed and the company should be made aware of this before the expire date to make arrangements for a safe shutdown of the plant. I agree with arranging for safer renewable energy sources to be invested in and used, especially where the population is so dense and eco systems are so fragile because of the population density. Without a new water permit, the plant will have to shut down. This is your out. Please watch shows 'Planet Earth : Our Loving Home' on www.suprememastertv.com

There shouldn't be any nuclear plants anywhere near populated cities.

Where is their 'Brains' There will be the same disaster as Japan. Do this out in the Desert somewhere.

God is watching all wickedness that is going on in this world. Repent of all your wicked deeds of murder, lies, temptations, greed, pride and evil. No more evil, all will be exposed. The world is going to be judge soon. People, do good and NO EVIL. The real God is coming back to finish evil. You have been warned. Stay in goodness and love. God bless all people and living beings here.
