Gentlemen:

The regulatory staff has prepared the attached draft criteria regarding industrial security. This draft material reflects preliminary thinking by the staff on this subject. It is furnished to applicants for the purposes of illustrating the scope of security planning that is considered appropriate and identifying specific aspects of security planning that should be addressed in security plans. Applicants are encouraged to use the draft criteria as a "checklist" in the preparation of security plans.

These criteria are not and should not be regarded as firm requirements of the regulatory staff; conformance with every criterion is not essential.

Sincerely,

Original signed by
