Duke Power Company
ATTN: Mr. William O. Parker, Jr.
Vice President - Steam Production

Charlotte, North Carolina 28242

Gentlemen:

This office has received a copy of your June 8, 1978 application for amendment to Facility License Nos. DPR-38, DPR-47, and DPR-55 which you filed with the Office of Nuclear Reactor Regulation. The application relates to a change in the Oconee Unit Nos. 1, 2 and 3 steam generator leak rate limit. You stated that no license fee was required because your request was considered supplemental information to previous letters dated June 21 and December 16, 1977.

We have determined that the requested action is entirely independent and involves consideration of a safety issue that qualifies it as a Class III amendment for Oconee 1 (\$4,000) and Class I for Oconee 2 and 3 (\$400 each). On this basis, it is not exempt from fees. It is requested, therefore, that you promptly forward fees totalling \$4,800 to this office. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be refunded any overpayment or billed for any additional amount due.

If we can be of assistance to you, call 301/492-7225.

Sincerely,

Original Signed by
Wm. O. Miller
