SERVICES UNIT

Gentlemen:

This refers to your October 29, 1980 request for approval of the primary route to cover shipments of Ocone spent fuel to the Babcock & Wilcox, Lynchburg Research Center.

The review of licensee route approval requests is subject to the Commission's license fee schedule in 10 CFR 170. For reactor licensees, fees for the review of route approval requests will be assessed under fee Category F of Section 170.21, as special projects. In accordance with Footnote 4 of Section 170.21, the charge for the review will be determined by the Commission based on the professional manpower required to conduct the review plus any support costs. In determining the fee to be charged, only actual staff time expended in the review of the route request is used to calculate the fee; the route (field) survey conducted by the NRC staff is excluded from fee computation.

When the approval has been issued, we will notify you of the fee due. If you have any questions concerning this matter, please let us know.

Sincerely,

Original Signed By  
J. D. Weiss
