Linear No-Threshold Model and Standards for Protection Against Radiation

Comment On: NRC-2015-0057-0010

Linear No-Threshold Model and Standards for Protection Against Radiation; Notice of Docketing and Request for Comment

Document: NRC-2015-0057-DRAFT-0077

Comment on FR Doc # 2015-15441

Submitter Information

Name: Jeff Davidson

General Comment

Please do not change the safeguards currently in place to protect us. Nuclear workers assume additional risk of exposure to radiation. To raise the acceptable level of exposure to that same level for all citizens does not seem wise. To raise the acceptable level of exposure for children, including fetuses, does not seem fair. They don't even have a right to vote yet. Citizens are exposed to enough cancer-causing chemicals and radiation as it is, with levels increasing each year. Lowering our standards is not the solution. Please do not make this change. Thank you.
