Notice of Receipt and Availability of Application for a Combined License

Comment On: NRC-2009-0337-0020

Combined License Application for Turkey Point Nuclear Plant, Unit Nos. 6 and 7; Draft Environmental Impact Statement

Document: NRC-2009-0337-DRAFT-0155

Comment on FR Doc # 2015-05099

Submitter Information

Name: Pat H

General Comment

Sea level rise makes the location of these plants irresponsible. I have lived in Florida all of my rather long life and seen what hurricanes can do in coastal areas; this is especially true in South Florida. In addition, the power lines through the Everglades, a World Heritage site and the location near the Biscayne NP, is reprehensible.

Where will the spent rods be disposed of and how will they be transported? What dangerous pollutants will escape in the cooling water to the bay?

Please stop the madness!
