SUBJECT: THE AMERICAN UNIVERSITY, LICENSE AMENDMENT, CONTROL NO.
587186

Dear Dr. Tubman:

This refers to your license amendment request. Enclosed with this letter is the amended license.

Please note that Dr. John Bracht is listed as an authorized user on the license. He is approved to act as the Alternate Radiation Safety Officer but is not listed as such on the license because the NRC only lists the Radiation Safety Officer and authorized users on the license. Also, in accordance with the original license application, the detailed Radiation Protection Program Plan is not listed in License Condition 17 so that you can revise this document, so long as those revisions continue to meet the commitments listed in Condition 17. Revisions to the commitments listed Condition 17 require amendment of your license.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).
