RE: Government to Government Transmission of; AUC, Reno Creek Project, Operations Plan, Section 10 - Mitigation Measures, LQD Permit to Mine Application, TFN 5 4/150

Jill,

Per our recent phone communications, attached is *Section 10: Mitigation Measures* from the the AUC, Reno Creek ISR Project, application for a Wyoming Department of Environmental Quality-Land Quality Division (LQD) Permit to Mine.

LQD is providing this portion of the subject application at the request of NRC to assist in preparation of the EIS. LQD has contacted AUC regarding NRC's request and AUC subsequently provided LQD with the attached electronic copy of Section 10.

Please note, the attached information is not intended to be a submission by LQD or AUC to meet any requirement associated with the LQD permitting process. The attached information is extracted from an application that has been compiled and formatted to meet the application requirements set forth by LQD for a permit to mine in the State of Wyoming. It is the understanding of LQD and AUC that this government to government transmission of the attached document will not be made available by NRC for public viewing. As of the date of this email, LQD has not approved the application and requests that the attached information is not made available for public viewing on ADAMS.
