Dr. Robert Dimeo, Director
NIST Center for Neutron Research
National Institute of Standards and Technology
100 Bureau Drive, MS 6100
Gaithersburg, MD 20899-6100

Dear Dr. Dimeo:

The purpose of this letter is to thank you and your staff at the National Institute of Standards and Technology (NIST) Center for Neutron Research, for the presentation and tour of your research reactor on Tuesday (7/21/15) and Wednesday (7/22/15). Approximately 25 individuals from different offices at the U.S. Nuclear Regulatory Commission (NRC) and from the National Nuclear Security Agency (NNSA) participated in these visits and greatly benefitted from understanding the technologies and use of NIST's research reactor.

The purpose of this visit was to provide an informational opportunity and training to new staff at the NRC. Our staff greatly appreciated the great tour and commentary from Mr. Ricky Sprow and other members of your team.

We value all the time and effort that your office has devoted to this visit and we hope to keep communication open for future opportunities in the next few years.

Again, on behalf of NRC's staff, thank you for your efforts and support during this activity.

Sincerely,

/RA/

Marissa G. Bailey, Director
Division of Fuel Cycle Safety, Safeguards,
and Environmental Review
Office of Nuclear Material Safety
and Safeguards
