The document number designations "X.XX" are used to encompass all applicable document numbers, e.g. E08-03-1.1, E08-03-2.1, E08-03-3.11, etc. For your convenience, I have enclosed a document summary in hard copy. This summary includes a listing of folders, files, and document numbers and titles that are included on the CD-ROM. An electronic copy of the summary is included in the root directory of the disc.

Please destroy any previous copies of these documents that you still have on file.

10 CFR 70.32(i) requires emergency plan revisions to be furnished to the USNRC within six months after changes are made. On 02/23/2015, the AREVA Richland Emergency Plan (E08-01-1.0) was revised to version 11.0, which is the current revision. A nature of change listing and the electronic signature page is enclosed with this letter.

Additional copies are being sent to AREVA Richland's USNRC Project Manager (Soly Soto), USNRC Region II (Manuel Crespo), and the USNRC Senior Resident Inspector at Columbia Generating Station (Jeremy Groom).

If you have questions regarding this transmittal, please contact me at (509) 375-8285 or via email at jeff.deist@areva.com.

Very truly yours,
