SUBJECT: REQUEST REVIEW OF PRELIMINARY DRAFT SUPPLEMENTAL
ENVIRONMENTAL IMPACT STATEMENT FOR THE RENO CREEK IN SITU
RECOVERY PROJECT IN CAMPBELL COUNTY, WYOMING

Dear Ms. Diaz:

The U.S. Nuclear Regulatory Commission (NRC) requests your review of a preliminary draft environmental impact statement. The NRC staff is responsible for the environmental review of an application for a source materials license for the Reno Creek In Situ Recovery Project located in Campbell County, Wyoming. The NRC staff has developed a preliminary draft of a Supplemental Environmental Impact Statement (SEIS) for this action and would appreciate your early review and comment.

Enclosure 1 is a hard copy of the preliminary draft SEIS. Enclosure 2 is a CD containing the electronic version of the preliminary draft SEIS for your convenience. It is important to note that this is a preliminary report so certain sections may change prior to publishing a draft for public comment in order to account for ongoing activities. For example, cultural resources subsections will be updated to include recent consultation activities. In addition, the format will be revised to make the report more reader friendly and reduce the length of the main report.

A. Diaz

2

Because this is a government to government interaction concerning a predecisional document, we ask that you keep this report non-publically available. Please feel free to contact the NRC project manager, Ms. Jill Caverly, at 301-415-7674 or via email at Jill.Caverly@nrc.gov, should you have any questions.

Sincerely,

/RA/

Lydia W. Chang, Chief
Environmental Review Branch
Division of Fuel Cycle Safety, Safeguards,
and Environmental Review
Office of Nuclear material Safety
and Safeguards

Docket No.: 40-9092

Enclosures:

1. Preliminary draft SEIS
2. CD containing copy of preliminary draft SEIS
