Thanks for your e-mail and receiving my call on Friday. Attached is the information requested by you. Dr. Jurado is trying to put all information together. I will send that to you when I get it. Let me know if anything else is needed.

Dr. Shah,

Thank you for the additional info to continue the review for your license renewal.

Could you please provide more details regarding the shielding calculations you sent? Specifically, what does the badge report you attached represent? Where are those badges placed and do you monitor every month? etc. Also, the calculations you provided indicate minimum shielding requirements, but does the facility have that shielding incorporated into the structure?

Lastly, upon review of Dr. Jurado's info, I do not believe I can add him at this time. The Form 313A is incomplete in that it does not specify his training and supervised work experience in Section 3.a and 3.b of the form. I cannot solely accept the University of Toledo letter dated 06/30/08 for this and the other info from Meadville appears to only address numbers of procedures.

At this point, I'd rather complete the renewal and you can add Dr. Jurado at a later date.

Please respond to my questions above in a similar fashion by attaching a signed PDF letter as before.

Please let me know if you have any questions.
Bryan

Dear Mr. Parker:

Please find additional information you had asked for the renewal of NRC License No. 13-03226-04 (CN 585829). I am also attaching the request to add Dr. Jurado as an authorized user as I had discussed with you yesterday.
Please let me know if you need any other information.

Thanks.

Subject: NRC License Renewal - need additional info

Dr. Shah,

I am performing the review of the renewal of your NRC License No. 13-03226-04 and need some additional information to continue that review.

Please review the attached Request for Additional Info and let me know if you have any questions. You may respond electronically by attaching a **signed PDF file of your response** to an email and sending it to me. Indicate that it is "Additional Info for CN 585829."

I'm hoping this can be turned around quickly so I complete the review soon. Please provide a response within 14 days (by Wed July 8) if at all possible.

Again, if you have any questions, please let me know.

Also, please acknowledge your receipt of this RAI with a quick return e-mail.

Thank you.

Bryan

Ref: License #13-032296-04
Control # 585829

Dear Mr. Parker,

With reference to your email of July 9, 2015 and my telephone call on July 10, 2015 the following is being submitted.

The badge reports are monitored on a monthly basis. The report includes monthly, annual, and dose since December 2006. The location of the badges are inside the hot lab area where the dose is prepared and the injection room where the patient waits before the PET/CT scan is performed.

The facility has the shielding that meets or exceeds the calculated thicknesses.

The preceptor statement for Dr. Jurado will be send as soon as completed by him.

Thanks,

S. M. Shah
