SUBJECT: REQUALIFICATION PROGRAM INSPECTION - POINT BEACH NUCLEAR PLANT

Dear Mr. McCartney:

In a telephone conversation on July 31, 2015, Mr. A. Gustafson, Operator Training Manager, and Mr. B. Palagi, Senior Operations Inspector, made arrangements for the U. S. Nuclear Regulatory Commission (NRC) to inspect the licensed operator requalification program at the Point Beach Nuclear Plant. The inspection is planned for the week of August 31, 2015, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program.

In accordance with Title 10 of the Code of Federal Regulations (10 CFR) 55.59(c), the NRC may request facility licensees to submit their biennial comprehensive requalification written examinations or annual operating tests as necessary to support the NRC's inspection program needs. In order for the NRC to adequately prepare for this inspection, please furnish the written examinations and operating tests scheduled for the week of the inspection to the NRC by August 24, 2015. Mr. Gustafson has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.
