SUBJECT: CONSOLIDATION COAL COMPANY, LICENSE AMENDMENT, CONTROL
NO. 586886

Dear Mr. Witt:

This refers to your license amendment request dated April 23, 2015. Enclosed with this letter is the amended license.

Please note our records indicate that in addition to three fixed gauges (Thermo Measure Tech Models 5201 and 5202), you also acquired several EXIT signs containing tritium (H-3) under general license No. 705527 that you referenced in your letter. We have included only the three fixed gauges in the amended license. NRC Regulations in 10 CFR 31.5(c)(8)(ii) require that you furnish a report of this transfer to the Director, Nuclear Material Safety and Safeguards, ATTN: Document Control Desk/GLTS, as specified in the regulation. You should also notify the vendor(s) of these devices of the transfer so that their records may be updated.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).
