SUBJECT: AMENDMENT REQUEST FOR THE MODEL NO. IR-100 PACKAGE –  
ACCEPTED FOR REVIEW

Dear Mr. Rose:

By letter dated July 8, 2015, you submitted an amendment application for the Model No. IR-100 (Docket No. 71-9157). Staff performed an acceptance review of your application to determine if the application contains sufficient technical information in scope and depth to allow the staff to complete the detailed technical review.

This letter informs you that the application appears to contain the necessary information to begin a detailed technical review. We have established a schedule for this review which allows for the staff to issue a request for additional information in September 2015. If no additional information is needed, and based on the staff's evaluation, the approval may be issued at that time. However, if additional information is required, the revised certificate of compliance may be issued in November 2015 assuming your responses are satisfactory.

Please reference Docket No. 71-9157 and TAC No. L25035 in future correspondence related to this request. If you have any questions regarding this matter, I may be contacted at (301) 415-6877.

Sincerely,
