Re: SCDHEC- Division of Radioactive Waste Management Comments on the
Oconee Nuclear Station, Units 1, 2 and 3 Draft Plant Specific Supplement to the
Generic Environmental Impact Statement (GEIS) (TAC NOS. M99162, M99163,
and M99164)

We would like to thank the NRC for the opportunity to comment on the Draft
Supplement to the GEIS for Oconee Nuclear Station (ONS).

The only comment we have at this time concerns the reconciliation of the NPDES
permit toxicity issue. The permit for ONS has been referred to the Bureau of Water
Permit Administration Section for Public Notice to be published August 14, 1999. The
permit is expected to become effective October 1, 1999 provided there are no
challenges or appeals from the public during the 30-day Public Notice period.

Should you have any questions or need additional information please contact Michael
Gandy at (803)896-4246 or email at gandyrm.@columb34.dhec.state.sc.us

Sincerely,

Virginia Autry, Director
Division of Radioactive Waste Management
