Re: Docket Nos. 50-269, 50-270, and 50-287
Duke Energy Corporation, Oconee Nuclear Station, Units 1, 2, & 3

Dear Sirs:

Please be advised that the South Carolina Department of Natural Resources, an agency of the State of South Carolina, intends to submit comments to the U.S. Nuclear Regulatory Commission in response to the draft supplement to the Generic Environmental Impact Statement in response to the notice published at 64 FR 28843-02, in connection with the above captioned project. The Federal Register Notice stated that comments, to be certain of consideration, must be received by August 16, 1999. At this time, the Department of Natural Resources begs leave to submit comments for your consideration after that date. The Department has taken reasonable steps to compile information necessary to formulate its comments; however, staff of this Department has had to research files as far back as the 1960s. This burden has delayed the final formulation of comments.

As soon as this Department's comments are completed, they will be immediately forwarded to you at the above address. Inasmuch as preparation of your final plant-specific supplement to the GEIS will likely take some time, I trust that any delay in our Department's submission of its comments will cause you no unreasonable
